

# WATERTABLE/SILL COLLECTION

Rockfaced Watertable/Sill – in Normandy

Traditional Watertable/Sill – in Canyon

# WATERTABLE/SILL – 3 Profiles

**Durable, Functional & Maintenance Free** – Watertable/Sill products include a sloped top surface and water diversion drip groove that directs water away from surface facing materials for even the harshest climates. Our sills are dimensionally consistent for ease of layout and installation and come in the Traditional surface texture.

## 7 COLOR OPTIONS

Colors are integral and require no additional treatment or finishes. Our Color selections enable you to match and color coordinate with all of our StoneTransitions® architectural profiles such as wall and pier caps, window and door trim and other products.

Product colors in this brochure may vary slightly from actual product due to printing and photography limitations. We recommend viewing actual product samples prior to final selection.
